

## ROLLED ALLOYS - CANADA, INC. QUALITY ASSURANCE POLICY STATEMENT

RAC provides our customers with high quality products in compliance with contractual requirements.

We develop, implement, monitor, and continuously improve the systems and processes necessary to ensure that our commitment to quality is achieved. As such, we integrate Human Factors into the planning and execution of all elements and activities associated with our operations, to enhance system performance through the strengths of our people and our processes.

The RAC Quality Management System conforms and complies with ISO 9001:2015, AS9100D, and additional customer and legal requirements. It also meets the requirements of AS13100.

The Quality Assurance Manager has full authority for the management of this system, with the leadership, promotion, proactive reporting, and commitment of the entire team of Rolled Alloys.
